

My name is Josie Stein and I am working on a television documentary about the Scandinavian Star tragedy for the National Geographic Channel.

This programme aims to show exactly what happened during the disaster; particularly focusing on a countdown of events and illustrating what went wrong and how the tragedy has impacted and transformed both the shipping industry and general fire safety awareness.

We hope to tell much of the story from the point of view of the people who survived the disaster; who through their own personal testimonies are able to explain as no one else can, how this disaster happened, and what effects it has had on their lives.

I am writing to ask if anyone would be interested in participating in this programme.

If you would like to speak further about this project, so that I can explain in more detail what we hope to achieve with this programme please either email me: josie.stein@darlowsmithson.com or contact me by telephone: +44-20-7482-9609 (I will call you back to save you the cost of the call)

Best wishes,
Josie Stein
